concerning

SUBJECT MATTER OF REGULATION

ABATEMENT OF AIR POLLUTION - STANDARDS FOR PERIODIC MOTOR VEHICLE INSPECTION AND MAINTENANCE

Section 1

Section 22a-174-27 of the Regulations of Connecticut State Agencies is amended to read as follows:

Section 22a-174-27. Emission standards for periodic motor vehicle inspection and maintenance.

(a) Applicability.

This section shall apply to any owner or operator of a 1968 and later model year motor vehicle. This section shall not apply to motor vehicles which are exempt pursuant to Connecticut General Statutes section 14-164c (c).

(b) Definitions. For purposes of this section the definitions contained in subdivisions (1) through (16) shall apply.

(1) "CO" means carbon monoxide;

(2) "HC" means hydrocarbon;

(3) "Composite Motor Vehicle" or "COMPO" means a vehicle which is constructed from the component parts of two or more motor vehicles of different model year or vehicle type;

(4) "g/mi" means grams per mile;

(5) "Gross Vehicle Weight Rating" or "GVWR" means the value specified by the manufacturer as the maximum loaded weight of a single or a combination (articulated) vehicle, or its registered gross weight, whichever is greater. The GVWR of a combination (articulated) vehicle commonly referred to as the "Gross Combination Weight Rating" or GCWR is the GVWR of the power unit plus the GVWR of the towed unit or units;

(6) "Enhanced vehicle inspection and maintenance program" means a comprehensive vehicle emissions inspection and maintenance (I/M) program required pursuant to 42 U.S.C. section 7511a(c)(3);

(7) "idle test procedure with loaded preconditioning" means an analysis of exhaust gas concentration, by percent CO and HC, in accordance with "recommended [I/m] I/M short test procedures for the 1990's: Six Alternatives" section 4, EPA-AA-TSS-I/M-90-3 (January 1991);

(8) "light-duty truck" or "LDT" means a motor vehicle rated at 10,000 lbs. GVWR or less

Section 1

and is designed:

(A) to transport property or more than ten (10) persons; or

(B) with features enabling off-street or off-highway operation and use;

(9) "light-duty vehicle" or "LDV" means a motor vehicle that is designed:

(A) to carry not more than ten (10) persons, including the operator; and

(B) to transport persons and their property with at least fifty percent of the total area enclosed by the outermost body contour lines, excluding the area enclosing the engine;

(10) "loaded vehicle weight" or "lvw" means vehicle curb weight plus three hundred pounds (300 lbs.);

(11) "NOx" means oxides of nitrogen;

(12) "ppm" means parts per million by volume;

(13) "THC" means total hydrocarbons;

(14) "Transient emissions test" means any testing method approved by the administrator that measures the emissions of any combination of THC, CO and NOx, in grams per mile (g/mi), during acceleration and deceleration of a vehicle undergoing an enhanced vehicle inspection;

(15) "vehicle curb weight" retains that definition provided in 40 CFR section 86.082-2; and

(16) "vol. %" means percent by volume.

Section 1

[(d)](c) Between January 1, 1995 and December 31, 1996, inclusive, the emission standards contained in subdivisions (1) through (4) shall apply to any vehicle inspected pursuant to the provisions of chapter 246a of the Connecticut General Statutes.

(1) For vehicles of model years 1968 through 1996, inclusive, maximum allowable emissions for any idle exhaust emission test shall be:

Vehicle Model Year	CO (Vol. %)	THC (ppm)
1968-69	5.00	500
1970	4.75	475
1971	4.40	450
1972	4.25	425
1973	4.00	390
1974	3.80	350
1975	3.00	300
1976	2.80	300
1977	2.70	300
1978	2.40	275
1979	2.10	250
1980	2.00	225
1981	1.20	200
1982	1.20	200
1983	1.00	175
1984	1.00	150
1985	1.00	150
1986	1.00	150
1987	1.00	150
1988-96	1.00	125

(2) For vehicles of model years 1981 through 1996, maximum allowable emissions for any transient exhaust emissions test shall be:

LDV

Vehicle Model Year	THC (g/mi)	CO (g/mi)	NOx (g/mi)
1981- 82	2.00	60.0	3.00
1983- 90	2.00	30.0	3.00

Section 1

(4) Maximum allowable visible emissions for diesel powered LDVs and LDTs of model years 1968 and later, shall be 20% particulate opacity as determined by any opacity meter.

[(f)](e) Undetermined GVWR. [where] WHERE the gross vehicle weight rating cannot be determined, the emission standard for LDVs shall apply.

[(g)](f) Composite vehicles. [where] WHERE the vehicle is designated "COMPO" in the "make" field of the registration certificate, the emission standards for model year 1968 shall apply.

[(h)](g) Alteration or replacement of vehicle engine.

(1) Any vehicle with an engine other than the one originally installed by the manufacturer or an identical replacement of such engine shall be subject to the test procedures and standards for the chassis type and model year of the vehicle.

(2) Any vehicle that is re-engineered from an internal combustion gasoline engine to another combustion or fuel type, shall be subject to the test procedures and standards for a gasoline powered vehicle.

STATEMENT OF PURPOSE: The purpose of this regulation is to set emission standards for periodic motor vehicle inspection and maintenance. The purpose of this amendment is to make typographical corrections and allow the inclusion of 1971 through 1980 model year vehicles in the pressure test portion of the emissions test protocol.
