Altemont, Tenn.; V. L. Northcutt

Received the following:,

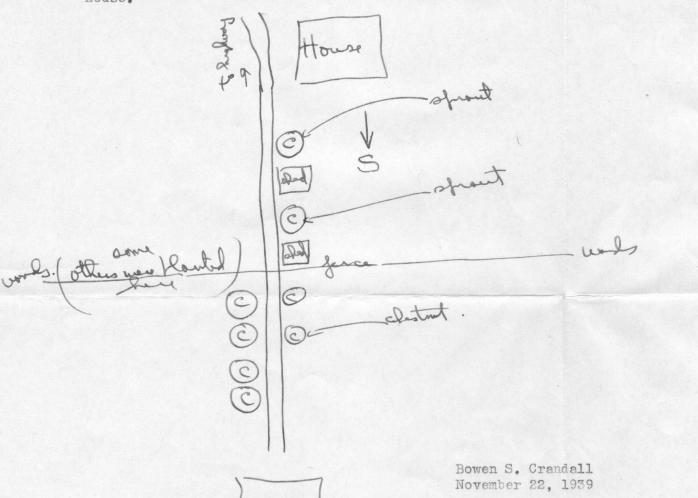

1936 20 MAA C. mollisima 1937 18 FP462 C. mollisima

According to Mrs. Northcutt the 1936 trees were planted in pasture southeast of the house and either died out or cattle ruined them.

The 1937 trees were planted along the road to the parn. 8 of these trees survive. 6 are 3-4 ft. high and two have died back and sprouted about 10-12 inches high.

Directions to reach farm.

Drive one mile NE of town on State hy. #56, after passing store on left take the first road to right. This runs into the farm in front of house.
