

2014-2016 State DERA2 Grant

Three projects were selected to receive DERA2 funding following an open competition in 2014. These projects were completed and the equipment is in use.

- \$9,570.62 to install idle-reduction technology on two switch engines based in New Haven and owned by the Providence and Worcester Railway Company.
- \$22,699.69 toward early replacement of a box truck for the Connecticut Department of Correction; and
- \$51,068.00 toward early replacement of a refuse collection truck owned by D. A. Vento Refuse, LLC of Wilton.

In the fall of 2015, an open and competitive process resulted in the selection of four early replacement projects, all of which were successfully completed.

- \$46,057.00 toward early replacement of a pay loader for the Town of Wethersfield;
- \$23,193.84 toward early replacement of a box truck for the Connecticut Department of Correction;
- \$37,638.13 toward early replacement of a hook lift refuse collection truck owned by D. A. Vento Refuse, LLC of Wilton; and
- \$20,341.72 toward early replacement of a snow-plowing dump truck for the Town of Ledyard.

DEEP conducted an open and competitive process for selecting four new projects in the fall of 2016. All projects were successfully completed and the equipment is in use.

- \$97,245.60 toward the repowering of two fishing vessels for Jeanette T. Fisheries, LLC;
- \$21,927.32 toward early replacement of a box truck for the Connecticut Department of Correction;
- \$12,394.00 toward early replacement of a skid steer loader for the Town of Wethersfield; and
- \$57,091.08 toward early replacement of a snow-plowing dump truck for the Town of West Hartford.
