PART IV. MONITORING, REPORTING AND RECORD KEEPING REQUIREMENTS

- The permittee shall keep records of annual fuel consumption for this furnace that shall be based on any consecutive twelve (12) month time period and shall be determined by adding the current month's fuel usage to that of the previous eleven (11) months. The Permittee shall make these calculations monthly.

The permittee shall keep records of total annual fuel consumption for furnaces 1,2,3, and 11 that shall be based on any consecutive twelve (12) month time period and shall be determined by adding the current month's fuel usage to that of the previous eleven (11) months. The permittee shall make these calculations monthly.

During the initial year of operation, the monthly emission limit shall not exceed the annual limitation divided by four (4).

- The Permittee shall use a fuel metering device to continuously monitor fuel feed to this permitted source.
- The Permittee shall keep records on premise indicating continual compliance with all above conditions at all times and shall make them available upon request by the Commissioner for the duration of this permit, or for the previous three (3) years, whichever is less.
