

Regulations of Connecticut State Agencies Section 22a-174-22d

- ❖ Post-2011 Connecticut Ozone Season Nitrogen Oxides (NO_x) Budget Program maintains CAIR cap of 2691 tons in intra-state ozone season cap-and-trade program.
- ❖ Proposes to maintain 2009-2011 allocation methodology from RCOSA section 22a-174-22c (using average of 5th and 6th previous control periods HI and MWh data).
- ❖ Received draft regulation approval from OPM. Approval from Governor pending and expected shortly.
- ❖ Public hearing anticipated to be held in November 2011.

Ozone Transport Commission

Current Efforts

- ❖ Comment period on Consumer Products, Solvent Degreasing and Natural Gas Compressors model rules closed at the end of September 2011. Comments are available at:
<http://otcair.org/document.asp?fview=meeting>
- ❖ OTC workgroups have reviewed and discussed stakeholder comments and made some revisions to model rules.
- ❖ The three model rules will likely be presented for approval at the OTC Fall Meeting on November 9-10, 2011.
- ❖ DEEP will evaluate whether or not to proceed with regulatory development based on any of the approved OTC model rules.
