

EPA Webinars 1/10/13

Boiler MACT (major and area source), CISWI, Solid Waste Definition

- Date: Thursday, January 10, 2013

Time: 1:00 PM - 3:00 PM EST

Register at:

<https://www1.gotomeeting.com/register/580792104>

Background: On December 20, 2012, EPA issued final changes to Clean Air Act standards for major and area source boilers and commercial/industrial solid waste incinerators. These adjusted standards will achieve extensive public health protections by reducing toxic air pollution, while increasing the rule's flexibility. In addition, EPA also issued a revised rule that identifies which non-hazardous secondary materials are, or are not, solid wastes when burned in combustion units. This webinar for stakeholders will cover key adjustments for these four rulemakings.

- Additional information about these actions, including fact sheets, is at www.epa.gov/airquality/combustion/actions.html#dec12

Portland Cement Manufacturing

- Date: Thursday, January 10, 2013

Time: 3:30 PM - 4:30 PM EST

Register

at: <https://www1.gotomeeting.com/register/544750713>

Background: On December 20, 2012, EPA finalized amendments to the agency's air toxics rules for Portland cement manufacturing. The amended rule will maintain dramatic reductions of mercury, acid gases, particulate matter and total hydrocarbons from existing cement kilns across the country, while ensuring that emissions from new kilns remain low. This webinar for stakeholders will cover air toxics standards and new source performance standards for the Portland cement industry, as well as monitoring and emission limits for new and existing cement kilns.

- More information about the final amendments, including a fact sheet is at <http://www.epa.gov/airquality/cement/actions.html>
