EV Charging Infrastructure Incentive Program: A Key Part of Connecticut's Cheaper, Cleaner, More Reliable Energy Future

December 12, 2013
Patrice Kelly
SIPRAC

Connecticut Department of Energy and Environmental Protection

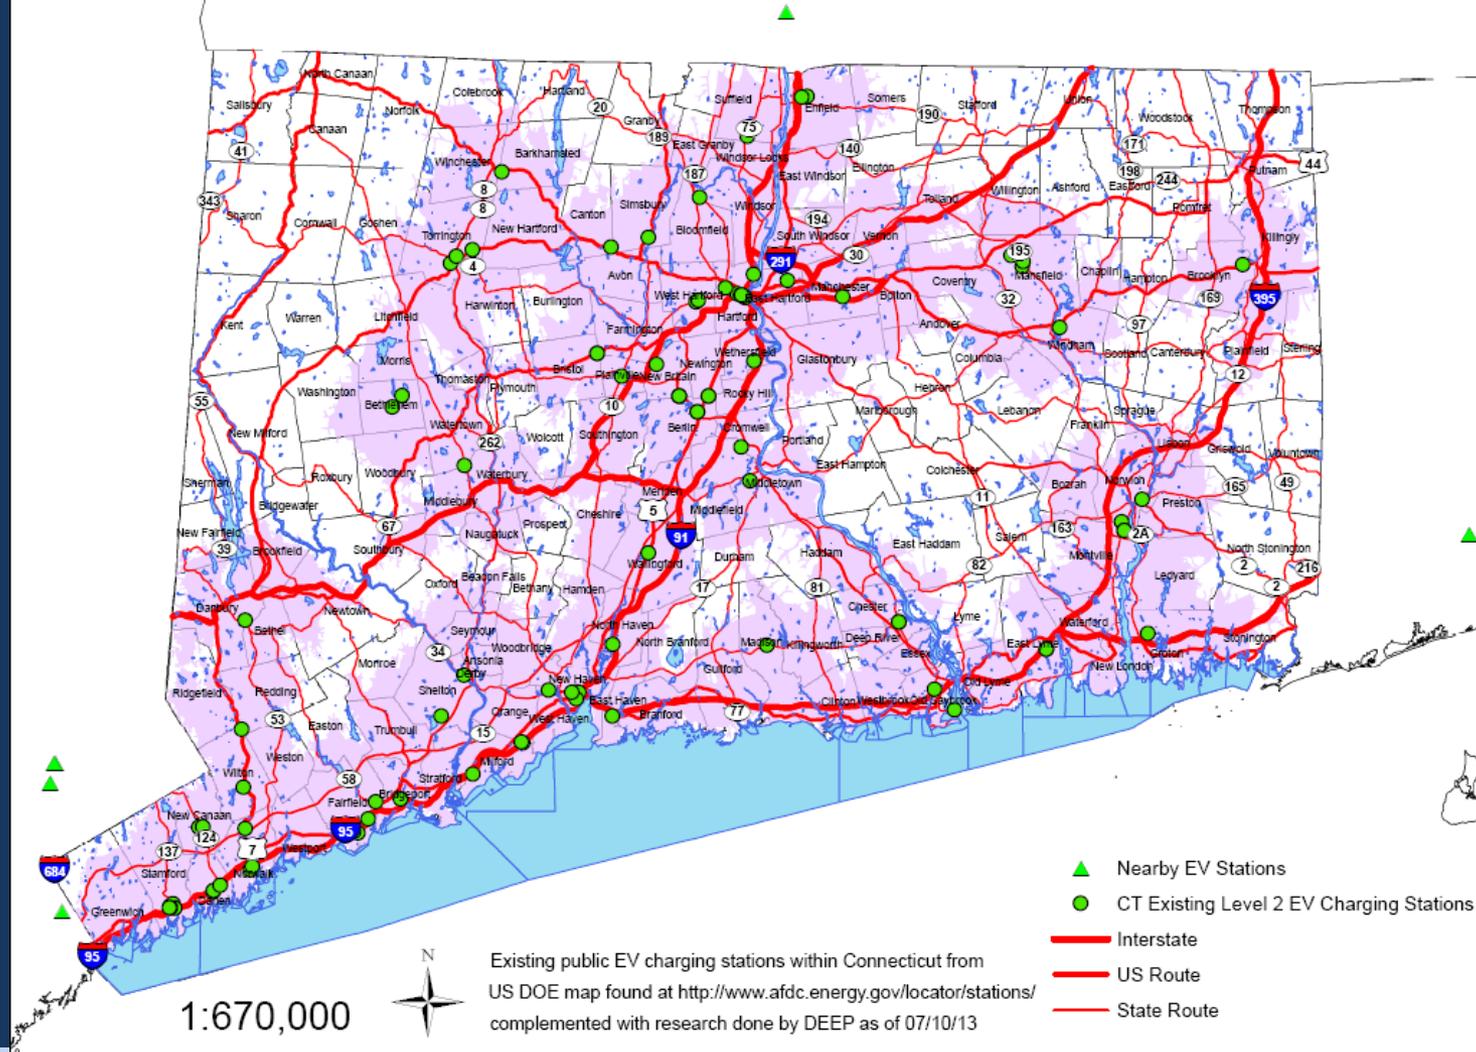

Goals

- To enhance the market for electric vehicles (EVs) in Connecticut
- Give motorists the option to re-fuel with locally-generated electricity from domestically-produced fuels
- Provide publicly-accessible EV charging stations within a 15-minute drive of any location in the state

Status Before Program

EV Charging Stations in Connecticut and 15 min "Radius"

The Incentives: Two Levels

- Other Locations: maximum award of \$2,000 per unit or \$4,000 per location
- Priority Areas: maximum award of \$5,000 per unit or \$10,000 per location.

Source of Funds

Funding is made available pursuant to the Northeast Utilities-NStar merger agreement of April 2012.

The Requirements:

- Open to the Public
- Operating by May 30, 2014 (Round 1 by April 1)
- Not-for-Profit
- Post on U.S. Department of Energy Website
- Install Signage

EV Charging Signage

Preferences

- Operational ASAP
- No Charging Fee for Three Years
- Operating 24/7
- Providing lighting, and shelter
- Situating each EV charging unit so it can accommodate at least two vehicles.

Location Preferences

- Along transportation corridors, including state highways
- Near restaurant, retail and/or entertainment opportunities
- At high profile/high traffic installations, such as those at train stations and airports

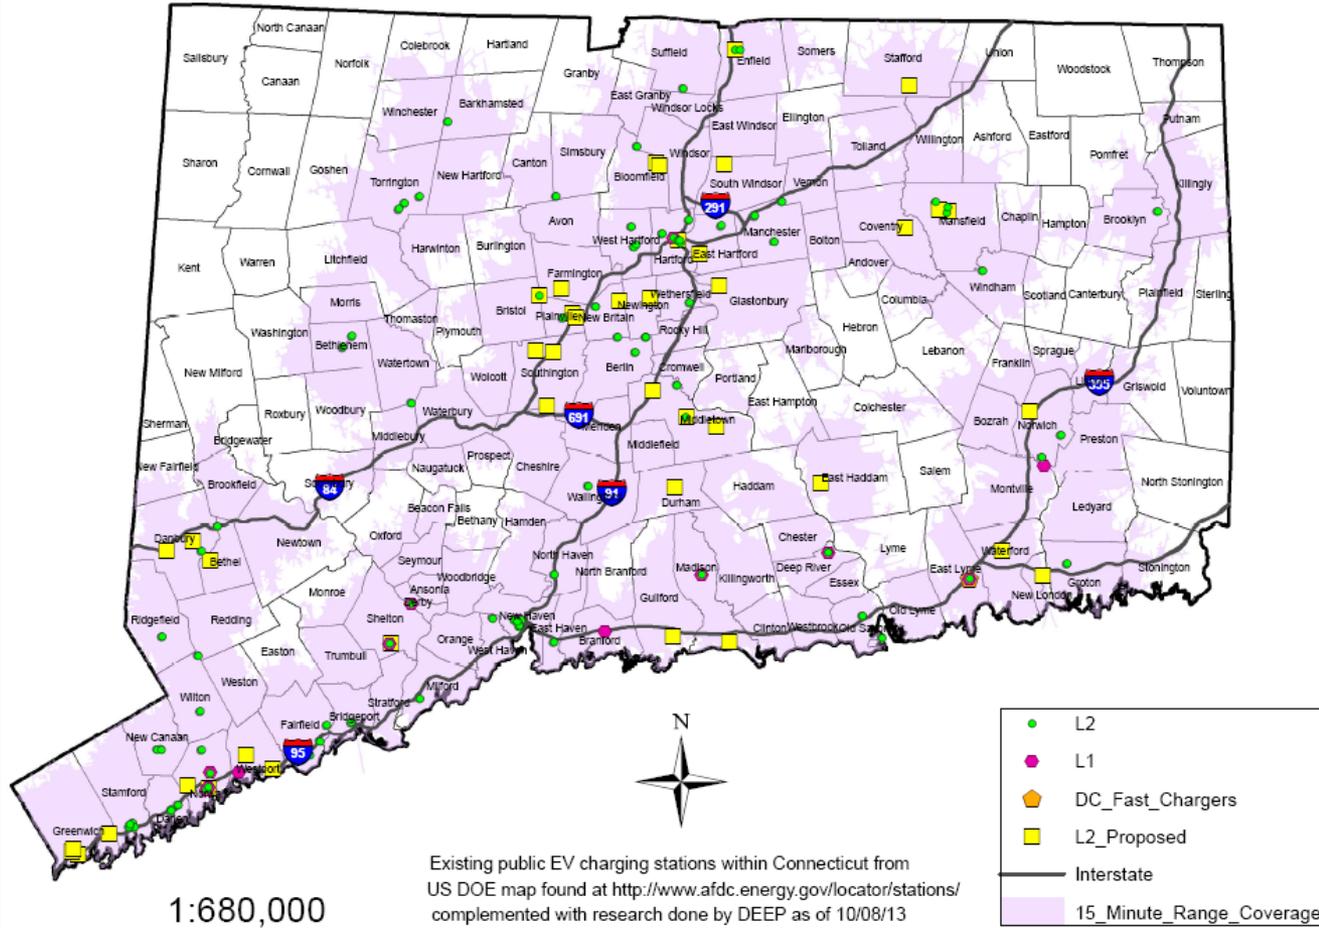

Round 1 Results

- Total Grants: \$135,946.40
- 56 New Charging Units
- 36 Recipient Businesses, Organizations, Municipalities, Colleges & Universities
- 42 Locations

Progress Toward Goal: Round 1

Connecticut's Proposed and Existing EV Charging Stations (EVCS) - October 2013

Round 2 Incentives Program

- Opened November 22, 2013
- Closed December 10, 2013
- Applications are being evaluated.

EV Charger Programs Under Development

- Municipal EV Charging Incentive Program
- DC Fast Charger Program
