Smart Thermostats – Energy Savings – Demand Response

Remote Sensors - Occupancy Sensors – Future weather predictability

Texas Demand Response

Sample Program Emails

Hi [firstName],

This email is being sent to inform you of a critical power event being called by ERCOT today at the time listed below. Remember, this is a totally voluntary event and while we hope to pay you for reducing your energy, there is no penalty for non-participation. If you are able to substantially reduce your energy usage during this event, you'll be eligible for a credit on your TriEagle invoice.

To help out you simply need to reduce your usage starting at the time mentioned below. There is no enrollment process or forms to complete. We do not know how long this event will last but it should last no longer than 3 hours.

Date July 11, 2016

Start Time: 3:30 PM

We'll pay: 29¢ per kWh saved

That's approximately 2.9 times what you pay us per kWh!

Hi [firstName],

TriEagle Energy would like to thank you for your participation, or consideration to participate, in the Critical Power Event that has been recalled. You may resume normal usage practice.

If you were able to participate, and you were successful in reducing your usage, you will receive an email from us next month with an estimate of the amount of money you earned back for your participation.

Remember, there is NO penalty if you weren't able to respond. These are, and always will be, purely voluntary.

Thank you!

TriEagle Energy – Critical Power Event Team

Hi Robert,

TriEagle Energy is pleased to inform you that you reduced your energy usage during the event that took place on Tuesday, June 14, 2016 and earned the rebate below. For this event, you earned 29¢ per kWh reduced and while the amount below may not seem like a substantial amount you can see how this could quickly add up. In other words, when combined with the curtailment efforts of many other TriEagle customers, you are making a significant impact. Your usage reduction went a long way in protecting our Texas environment and earning you the credit below.

\$1.37

This credit will appear on your next invoice.

Some notes:

This rebate was determined by looking at your usage over similar days prior to and after the day of the events. We considered the local weather where you live including temperature and cloudiness, to ensure we were comparing energy usage during similar demand periods.

The lead times for notification of these events, the time they occur and the length of the events are **NOT determined by TriEagle Energy**. These events are determined by the Electric Reliability Council of Texas (ERCOT). TriEagle Energy will use every means possible to notify you as early as possible, including text messaging, twitter and facebook.

Please remember these events are 100% voluntary and there is no penalty for non-participation.

Thanks again for your participation; we hope to see you at our next event!
