

A group of local fisherman camped out over the weekend (5/20-22/2016) on the Connecticut River and fished for carp. They were given special permission to fish over night by Middletown Parks since Harbor Park is usually closed after dark.

They had a great time. One of them contacted us and described their fun. He writes:

Absolutely incredible!!!

We had about 10 -12 anglers over the weekend and everyone caught fish...

I'm still counting up the stats but I'm guessing at least 20 fish over 20lb and 8 over 30lb topped by a 37lb 12oz beast for Edwin Stackhouse (beating his previous PB of 29lb). I even caught one of 30.04 and Andrew Nichols from the Fishin Factory picked up a run and landed another 30. Great PR for carp fishing with lots of people stopping by to see the action.

Cheers, Iain

(37lb 12oz)
