

South Sandisfield Quadrangle Carbonate Bedrock Map 2

Map

NOTICE !

Set of (18) 1:24,000 scale quadrangle compilation sheets delineating carbonate rocks of western Connecticut. Primary author Leo Hall, 1978, with contributions by Harwood 1971, for South Sandisfield Quad, and possibly other areas. Includes assortment of geologic data- geologic contacts, outcrops, and notes.

Regional compilation at 1:125,000 scale by Leo Hall 12/1977 & 12/1978, with some linework from Gates for the Sharon Quad.

This mapset contains unpublished maps, cross- sections, and related information archived by the State Geological and Natural History Survey of Connecticut as part of the Survey Library Collection.

These materials have not been reviewed for accuracy, consistency, or completeness. For many geographic areas, more current information exists, either in published or unpublished form.

-

For the most part, these materials were developed under research and mapping agreements between the State Geological Survey and individual scientists, academic institutions, or graduate students. Some of these materials have been received by the State Geological Survey as donations. The veracity of the information contained within these documents is the responsibility of the authorship. The State Geological and Natural History Survey of Connecticut, does not promote or endorse this content, nor does the State Survey attest as to its level of accuracy.

These materials have been preserved under a cooperative agreement between the State Geological Survey and the US Geological Survey as part of the National Geological and Geophysical Data Preservation Program. www.datapreservation.usgs.gov

These materials are offered in the spirit of open government. Reproduction of these manuscripts was conducted to the highest practical degree, within the parameters of the funding mechanism. Original documents are available for inspection by contacting the [Connecticut State Geologist](#).

Canaan Mtn
 rocks - Are
 they thrust over
 Dalton here or
 are they
 autochthonous
 with respect to
 Dalton here??
 I don't know!
 my guess is
 they are thrust
 and continuous
 with those south
 of Blackberry
 Riv.

(SOUTH CANAAN)

Mapped, edited, and published by the Geological Survey
 Control by USGS, USC&GS, Massachusetts Land and Harbor
 Commission, Massachusetts Geodetic Survey, and Connecticut
 Geodetic Survey.
 Topography in Connecticut by plane-table surveys 1944
 Topography in Massachusetts from aerial photographs by
 photogrammetric methods. Aerial photographs taken 1942
 Field check 1946. Revised 1958
 Polyconic projection. 1927 North American datum
 10,000-foot grids based on Massachusetts coordinate system,
 mainland zone, and Connecticut coordinate system
 1000-meter Universal Transverse Mercator grid ticks,
 zone 18, shown in blue
 Fine red dashed lines indicate selected fence and field lines
 visible on aerial photographs. This information is unchecked
