Today's Objectives

- Why make the case for change in the first place?
- The business case is easy to make.
- The change is hard to lead.
- Change requires a shift in mindset
- Change comes from external pressure + enlightened leadership.

Public Health and Environmental Impacts

Manufacturing=>Use=>Waste

H2E GOALS

- Virtually eliminate mercury waste by year 2005
- Reduce total waste volume by produced by the healthcare industry, 50% by 2010
- Identify and reduce PBT chemicals and other hazardous substances in hospitals through pollution prevention and waste reduction
- Changing the environmental culture of healthcare...
