Phone: <b>E-Mail:</b>	EPA Company Number:

### \*Registration Fee Calculator For 2020

First Letter of Company Name	Registration Fee Per Product (a)	Number of Products (b)	Total Registration Fee (a) X (b)
<input type="checkbox"/> A-B	\$940.00 [278]		
<input type="checkbox"/> C-E	\$752.00 [1361]		
<input type="checkbox"/> F-L	\$564.00 [1360]		
<input type="checkbox"/> M-R	\$376.00 [1359]		
<input type="checkbox"/> S-Z	\$188.00 [1358]		

\*Check the box indicating the first letter of the company name. If the company name begins with initials, do not use them when making this determination. For example, the fee for "A. B. Smith Company" is based on the letter "S" for "Smith" and not on the letter "A". Also, if the company name begins with "A" or "The", do not use them when determining the fee. For example, the fee for "A Pesticide Company" is based on "P" for "Pesticide" and not on "A". Multiply the number of product(s) being registered by the fee indicated to determine the total registration fee. For a company whose name has changed during the five year registration cycle, calculate new product registration fees based on the old company name until the end of the 5 year registration cycle. See [instructions](#) to determine if a product must be registered.

Make checks payable to: "Department of Energy and Environmental Protection".

Send questions regarding the calculation of registration fees to [deep.pesticideprogram@ct.gov](mailto:deep.pesticideprogram@ct.gov).
