# **FREE TRAINING – DO NOT MISS OUT!**

## **DEEP Hazardous Waste Training October 16, 2014 at Goodwin College One Riverside Drive, East Hartford**

To Whom It May Concern,

The Connecticut Department of Energy and Environmental Protection's ("DEEP") Waste Engineering and Enforcement Division hereby invites your company, as a RCRA generator, to attend an upcoming FREE generator training opportunity on October 16, 2014. The FREE training will be held from 1 to 4pm on the campus of Goodwin College in the River Campus Community Room located at 1 Riverside Drive in East Hartford, Connecticut. For directions, please visit [www.goodwin.edu](http://www.goodwin.edu).

This training is being provided for any employee involved in hazardous waste management activities at your Connecticut facility. There is no need to sign up in advance for this training, please arrive early and sign-in at the entrance to the Community Room. For those that sign-in and leave their email address, an electronic training certificate will be provided, which can be used to supplement a generator's training obligation under RCRA. Please email Mr. Mark Latham to [Mark.Latham@ct.gov](mailto:Mark.Latham@ct.gov) to register for the webcast instead.

The training is a supplement to WEED's Hazardous Waste Advisory Committee ("HWAC") public forum which will be taking place in the morning of the same day, October 16<sup>th</sup>, in the same place. You are invited to attend both, if possible, as the day long agenda is full of information sharing and training. See back side for meeting agenda. Finally, we strongly encourage all folks to become a member of the HWAC listserv to receive future updates electronically. To do so, please go to: [www.ct.gov/DEP/HWAC](http://www.ct.gov/DEP/HWAC) and follow the instructions at the bottom of the page.

If you have any questions about this FREE training opportunity, please contact WEED's Compliance Assistance (COMPASS) Hotline at (888) 424-4193.

I look forward to meeting you on the 16<sup>th</sup> of October.

Sincerely,

Robert C. Isner, Director  
Waste Engineering and Enforcement Division  
Bureau of Materials Management and Compliance Assurance

**REMEMBER TO REDUCE, REUSE, AND RECYCLE**

It's a *first* step towards a more sustainable world and in Connecticut, it's the Law.
