FREE EVENT – DO NOT MISS OUT!

**DEEP Hazardous Waste Training
October 25th at Goodwin College
One Riverside Drive, East Hartford**

To Whom It May Concern,

The Connecticut Department of Energy and Environmental Protection's ("DEEP") Waste Engineering and Enforcement Division hereby invites your company, as a RCRA generator, to attend an upcoming FREE training opportunity on October 25, 2012. The FREE training will be held from 1 to 4pm on the campus of Goodwin College in the River Campus Community Room located at 1 Riverside Drive in East Hartford, Connecticut. For directions, please visit www.goodwin.edu.

This training is being provided for any employee involved in hazardous waste management activities at your Connecticut facility. There is no need to sign up in advance for this training, please arrive early and sign-in at the entrance to the Community Room. For those that sign-in and leave their email address, an electronic training certificate will be provided, which can be used to supplement a generator's training obligation under RCRA. Please note that we are also trying to offer this day-long event over the internet via webcast (live streaming video) for folks that are interested, but cannot make it to East Hartford on the 25th in person. Please email Mr. Mark Latham to Mark.Latham@ct.gov to register for the webcast instead.

The training is a supplement to WEED's Hazardous Waste Advisory Committee ("HWAC") public forum which will be taking place in the morning of the same day, October 25th, in the same place. You are invited to attend both, if possible, as the day long agenda is full of information sharing and training. See back side for meeting agenda. Finally, we strongly encourage all folks to become a member of the HWAC listserv to receive future updates electronically. To do so, please go to: www.ct.gov/DEP/HWAC and follow the instructions at the bottom of the page.

If you have any questions about this FREE training opportunity, please contact WEED's Compliance Assistance (COMPASS) Hotline at (888) 424-4193.

I look forward to meeting you on the 25th of October.

Sincerely,

Robert C. Isner, Director
Waste Engineering and Enforcement Division
Bureau of Materials Management and Compliance Assurance

REMEMBER TO REDUCE, REUSE, AND RECYCLE

It's a *first* step towards a more sustainable world and in Connecticut, it's the Law.
