

# **Solid Waste Management Advisory Subcommittee on Construction & Demolition**

**Minutes  
November 27, 2007**

Attendees: Carey Hurlburt, Patricia Porter, Stan Gormley, Ken Ouellette, John Pizzimenti, David Bodendorf, Bob Gonyeau

## Open Discussion:

- Where do we go from here? Things to focus on in 2008: legislative changes, ReStores/Material Exchanges, DEP webpage changes, NEWMOA's upcoming study on C&D waste management and reuse/recycling opportunities in the region by:
  - 1- obtaining the most recent data available from states (2006) on C&D generation, processing, disposal, out-of-state shipment, and reuse/recycling
  - 2- analyzing the available state data and contact key processors and/or disposers to fill-in data gaps and provide perspective on market conditions
  - 3- developing tables and graphs to illustrate current C&D waste management in the region
  - 4- identifying opportunities for and barriers to greater reuse/recycling
- Promote Beneficial Use(s) for C&D materials. The proposed Regulated Fill Beneficial Use General Permit was discussed and it was decided that an additional Open Stakeholders meeting would be held primarily for the aggregate industry – scheduled for December 13<sup>th</sup>, but it was postponed until January 10<sup>th</sup>, due to a winter storm event.
