

# RESOURCES RECOVERY TASK FORCE

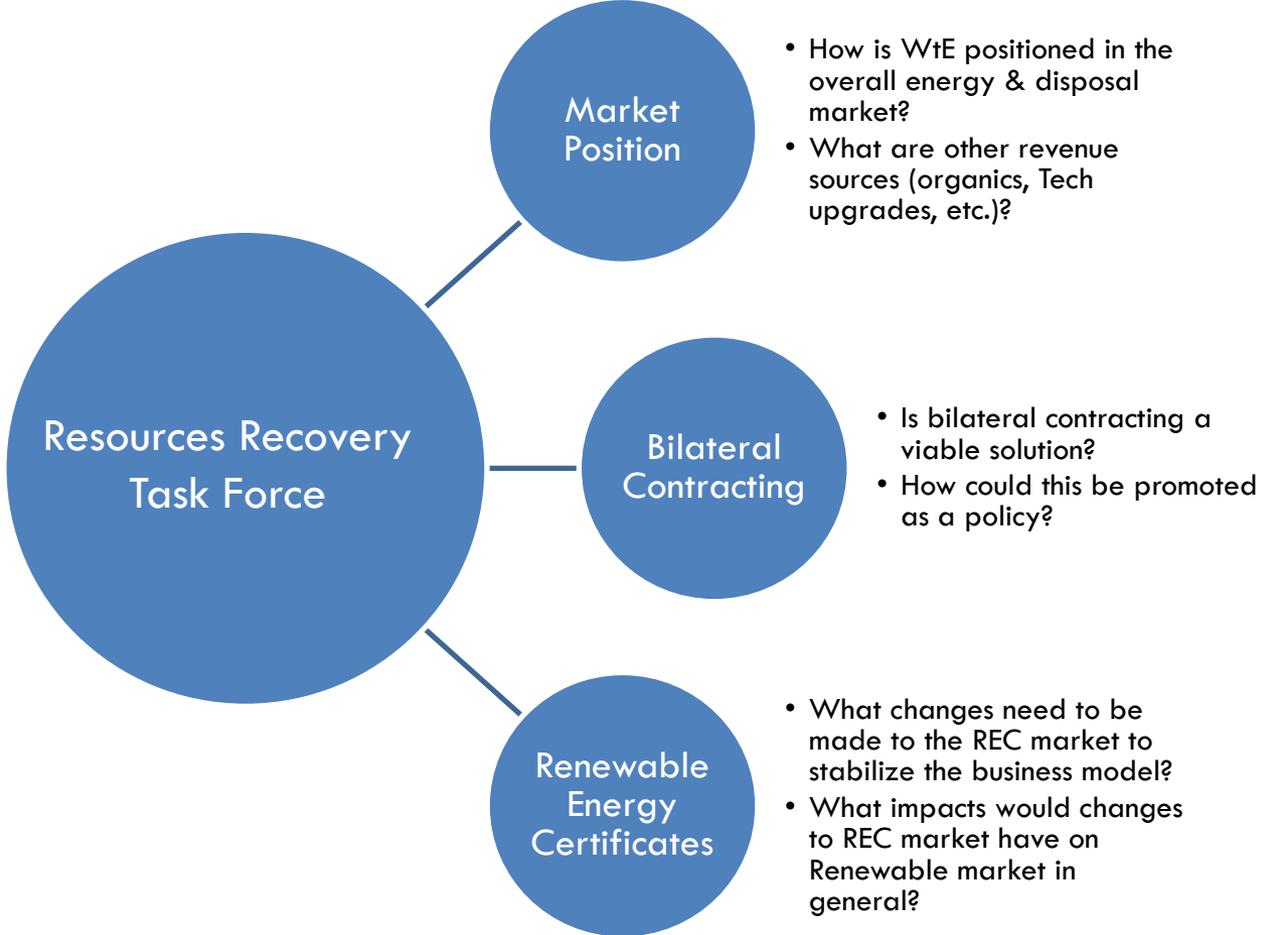

## OBJECTIVES

- “To study the operations, financial stability and business models for resource recovery facilities operating in the state” – P.A. 13-285
- To analyze the potential impacts of bilateral contracting and recommend any changes needed to statutes / regulations
- To explore alternative business models and new potential revenue sources for WtE operators in the state.
- To review statutes and regulations regarding renewable energy certificate credits (for WtE) and recommend any changes needed to statutes / regulations
- To make “Any other recommendations the task force deems appropriate concerning the future of resource recovery facilities in the state and the long-term financial status of such facilities.” - P.A. 13-285
