

PA 12-155 Workgroup 3 – Municipal options to address phosphorus reduction in receiving waters

September 30, 2013, 2:00 PM

Meeting Notes

A list of attendees with contact information is attached.

Rowland Denny received a proposed Scope of Work from Dennis Waz. Rowland will review and comment on and forward to the group.

Our final product is contingent on data we receive from the other two workgroups.

It was asked who would be willing to work on developing a list of technologies and their costs for treating point sources with the following showing interest:

Mike LeClaire

Steve Seigal

Bill Bent

Dennis Cuevas

Dave Ignatowicz and

Ray Drew.

Our second task, as Dennis Waz drafted, will largely be done by Workgroup 1. We will need to incorporate the data they produce into our analysis of what methods or approaches to removing phosphorus from point and/or non-point sources can be taken by municipalities to meet needed removals as defined by Workgroup 2.

Our next meeting will be Tuesday, November 12th from 9:00 AM to 11:00 AM in conference room 6A at DEEP headquarters. Future meetings will continue on the second Tuesday of the month from 9:00 AM to 11:00 AM.

If you have any questions, please contact Rowland Denny at 860-424-3749 or rowland.denny@ct.gov.
