

Meeting Minutes:

Thursday November 6, 2014 1:30 – 3:30 (CT DEEP HQ, Hartford CT – Rm 2B)

Upcoming Meetings:

CASE Science Workgroup Discussion – **Monday November 24** from 10 – 12 at CASE Office in Rocky Hill, CT (See attached for directions)

CANCELED Coordinating Committee Meeting – Monday December 1

Meeting Notes:

CASE Scope of Work – Final Draft Discussion

- CASE completed the final draft of the report and sent to the workgroup for review
- Eleven written comments were received from the workgroup: CDM Smith (Allegra D.), Bob Scully, EPA Region 1 (Toby S.), CRWC (Andy F.), Roger D. / Fred A., Bob T., CFE (Roger R.), CT USGS (John M.), Traci I. (CT DEEP), Rivers Alliance (Margaret M.) and Mary B./Chris B. (CT DEEP)
- In addition to individual comments, the workgroup as a whole identified two areas of the report where additional clarification is needed:
 - 1) How does the recommended methodology address all non-tidal freshwaters (i.e. wadeable streams, non-wadeable streams, lakes/impoundments)?
 - 2) How does the BCG conceptual model framework and attainment of WQS designated uses relate to the recommended methods for determining phosphorus as a stressor?
- The workgroup also requested that CASE add a summary of findings/recommendations at the beginning or end of each section

Follow-up Items:

- Mary B. and Roger D. forwarded written comments and workgroup discussion comments to CASE.
- CASE has compiled comments and distributed them to their study committee members. The CASE study committee members will meet prior to our workgroup discussion with them on Nov. 24th to go over the comments.
- CASE research and study committee members will attend the workgroup discussion on Nov. 24th.
