---

I took a look at the map, and zoomed in on Old Lyme, and note that you have Sound View noted in the wrong place, as well as Old Lyme Shores. Sound View comprises Portland Ave., Hartford Ave., and Swan Ave., much to the east of where you have it (which is considered Hawks Nest). Old Lyme Shores is close, but where you have it is Old Colony Beach (Old Colony Rd., Breem Ave., and Gorton Ave.). Old Lyme Shores is slightly to the east and encompasses Sea Spray, Saltaire, Brightwater and Billow Rd). I also do not see the Sheffield Brook, which goes right on the line of Old Lyme Shores and Old Colony Beaches. Considering that they just received an \$800,000 grant to fix the flooding caused from this stream, I am surprised that it is not on the map. Thank you for your consideration.

Best regards,
