

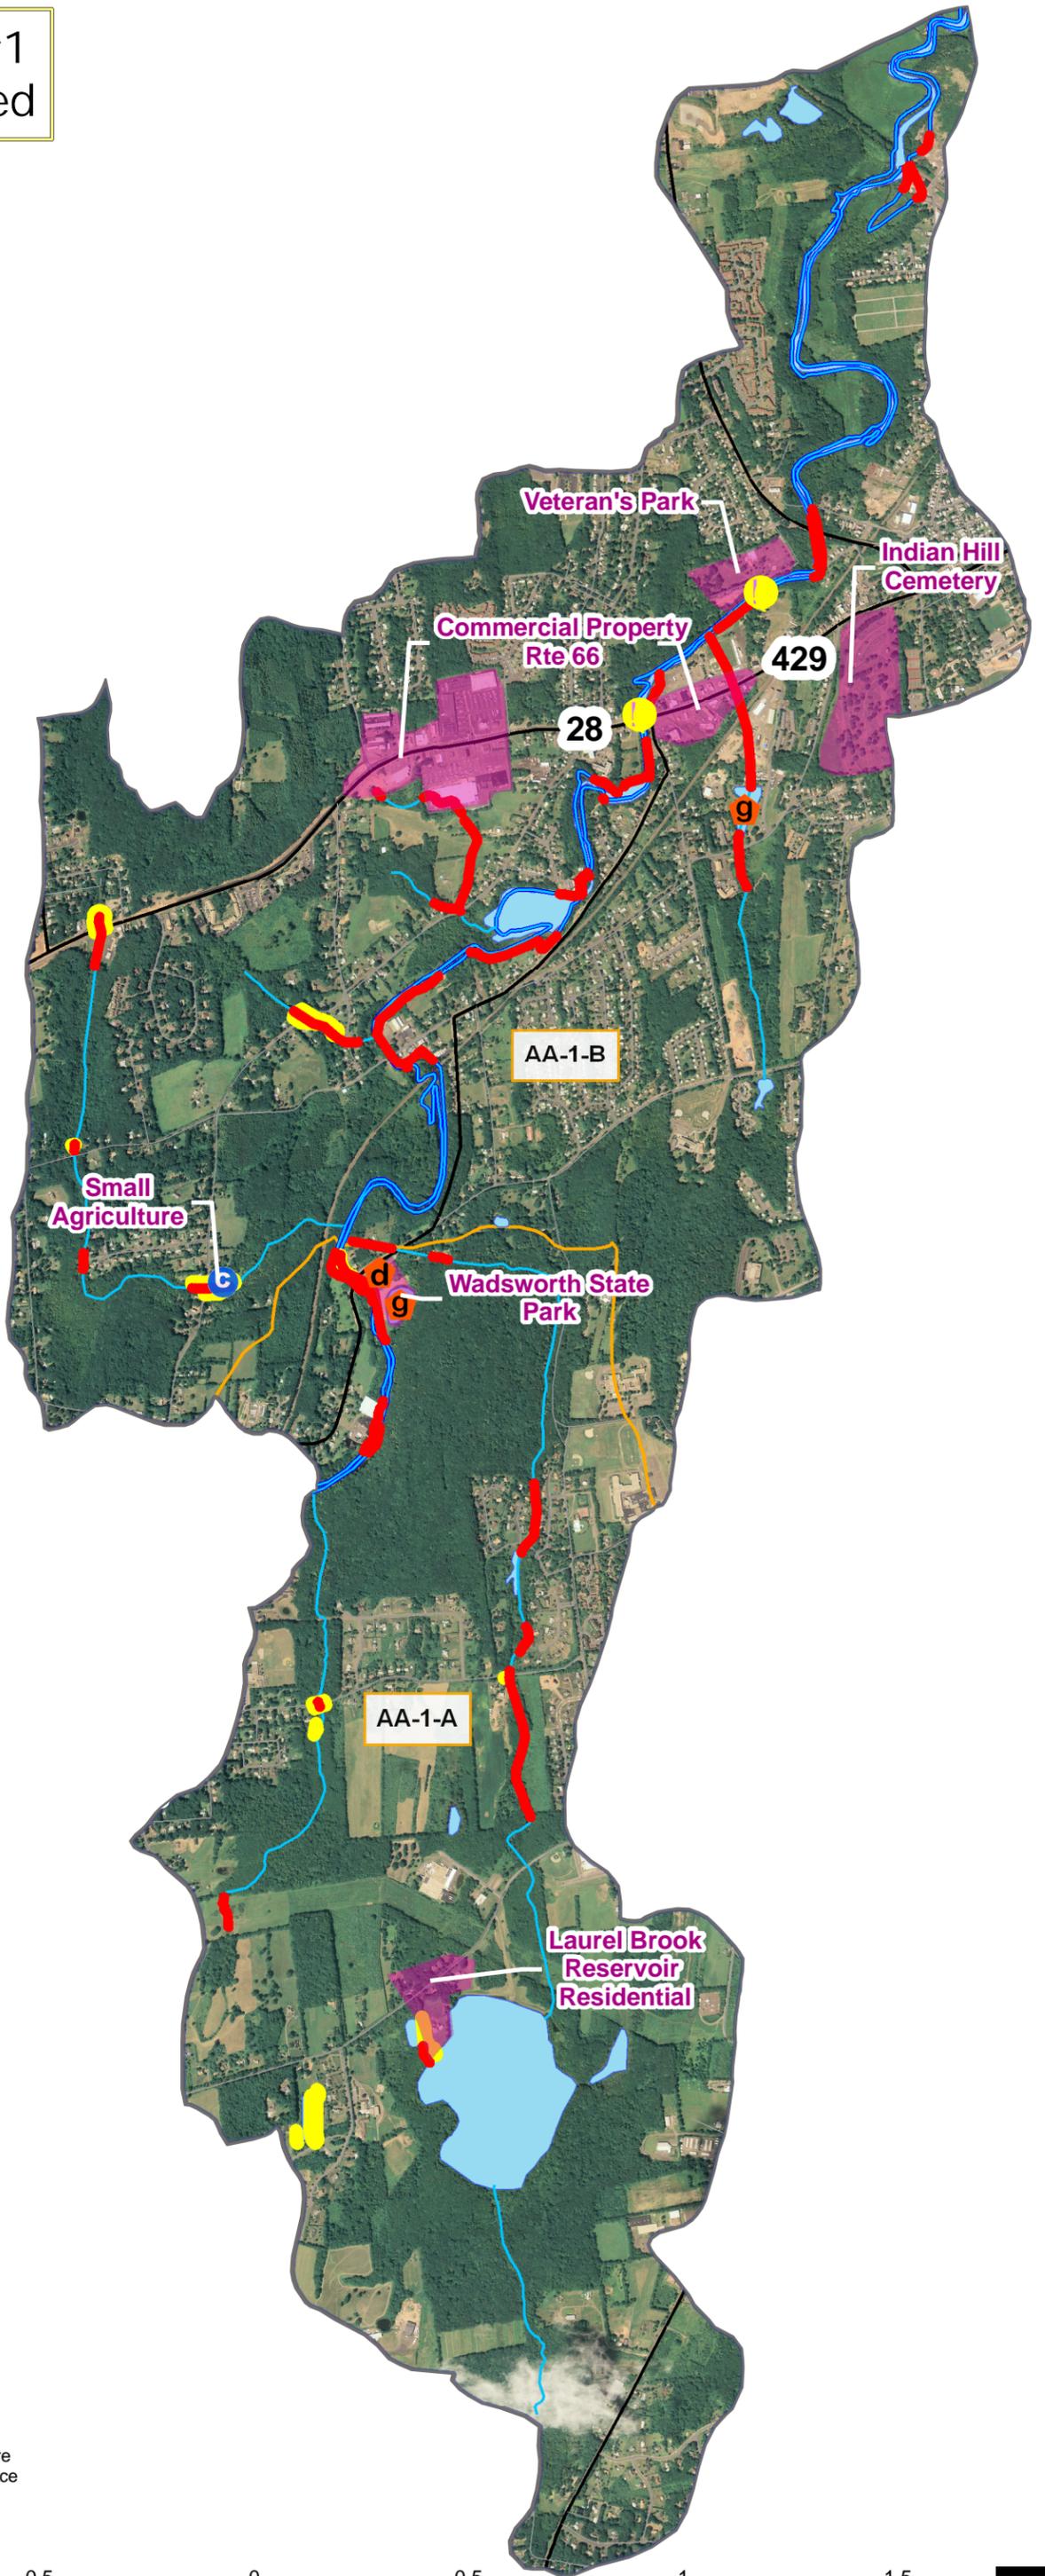

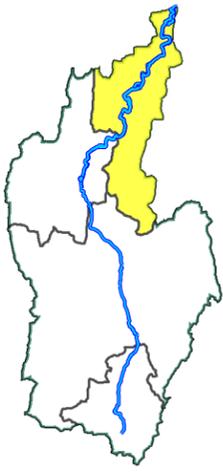

MAP 25: ANALYSIS AREA #1 Coginchaug River Watershed

Potential Agricultural Sources of Waste

- Cows
- Horse Farms
- Sheep
- Chickens

Other Potential Sources of Waste

- geese
- dogs
- seagulls

Water Quality Monitoring Points

- Monitoring Points used in TMDL
- Ancillary Monitoring Points

Areas of Concern

- Site Specific BMP Areas*
- Potentially Unbuffered Stream Segments
- Residential Areas of Potential Septic Failure

Perennial Water

- Coginchaug River
- Other Streams
- Waterbodies

Roads

- Secondary Roads
- State Roads

Sub-Analysis Areas

- Boundary

* The locations of the "Site Specific BMP's" are approximate. Also, the polygons indicating unbuffered stream segments and areas of potential septic failure are not to scale - the exaggerated size was necessary to make the sites visible given the scale of the map.
