

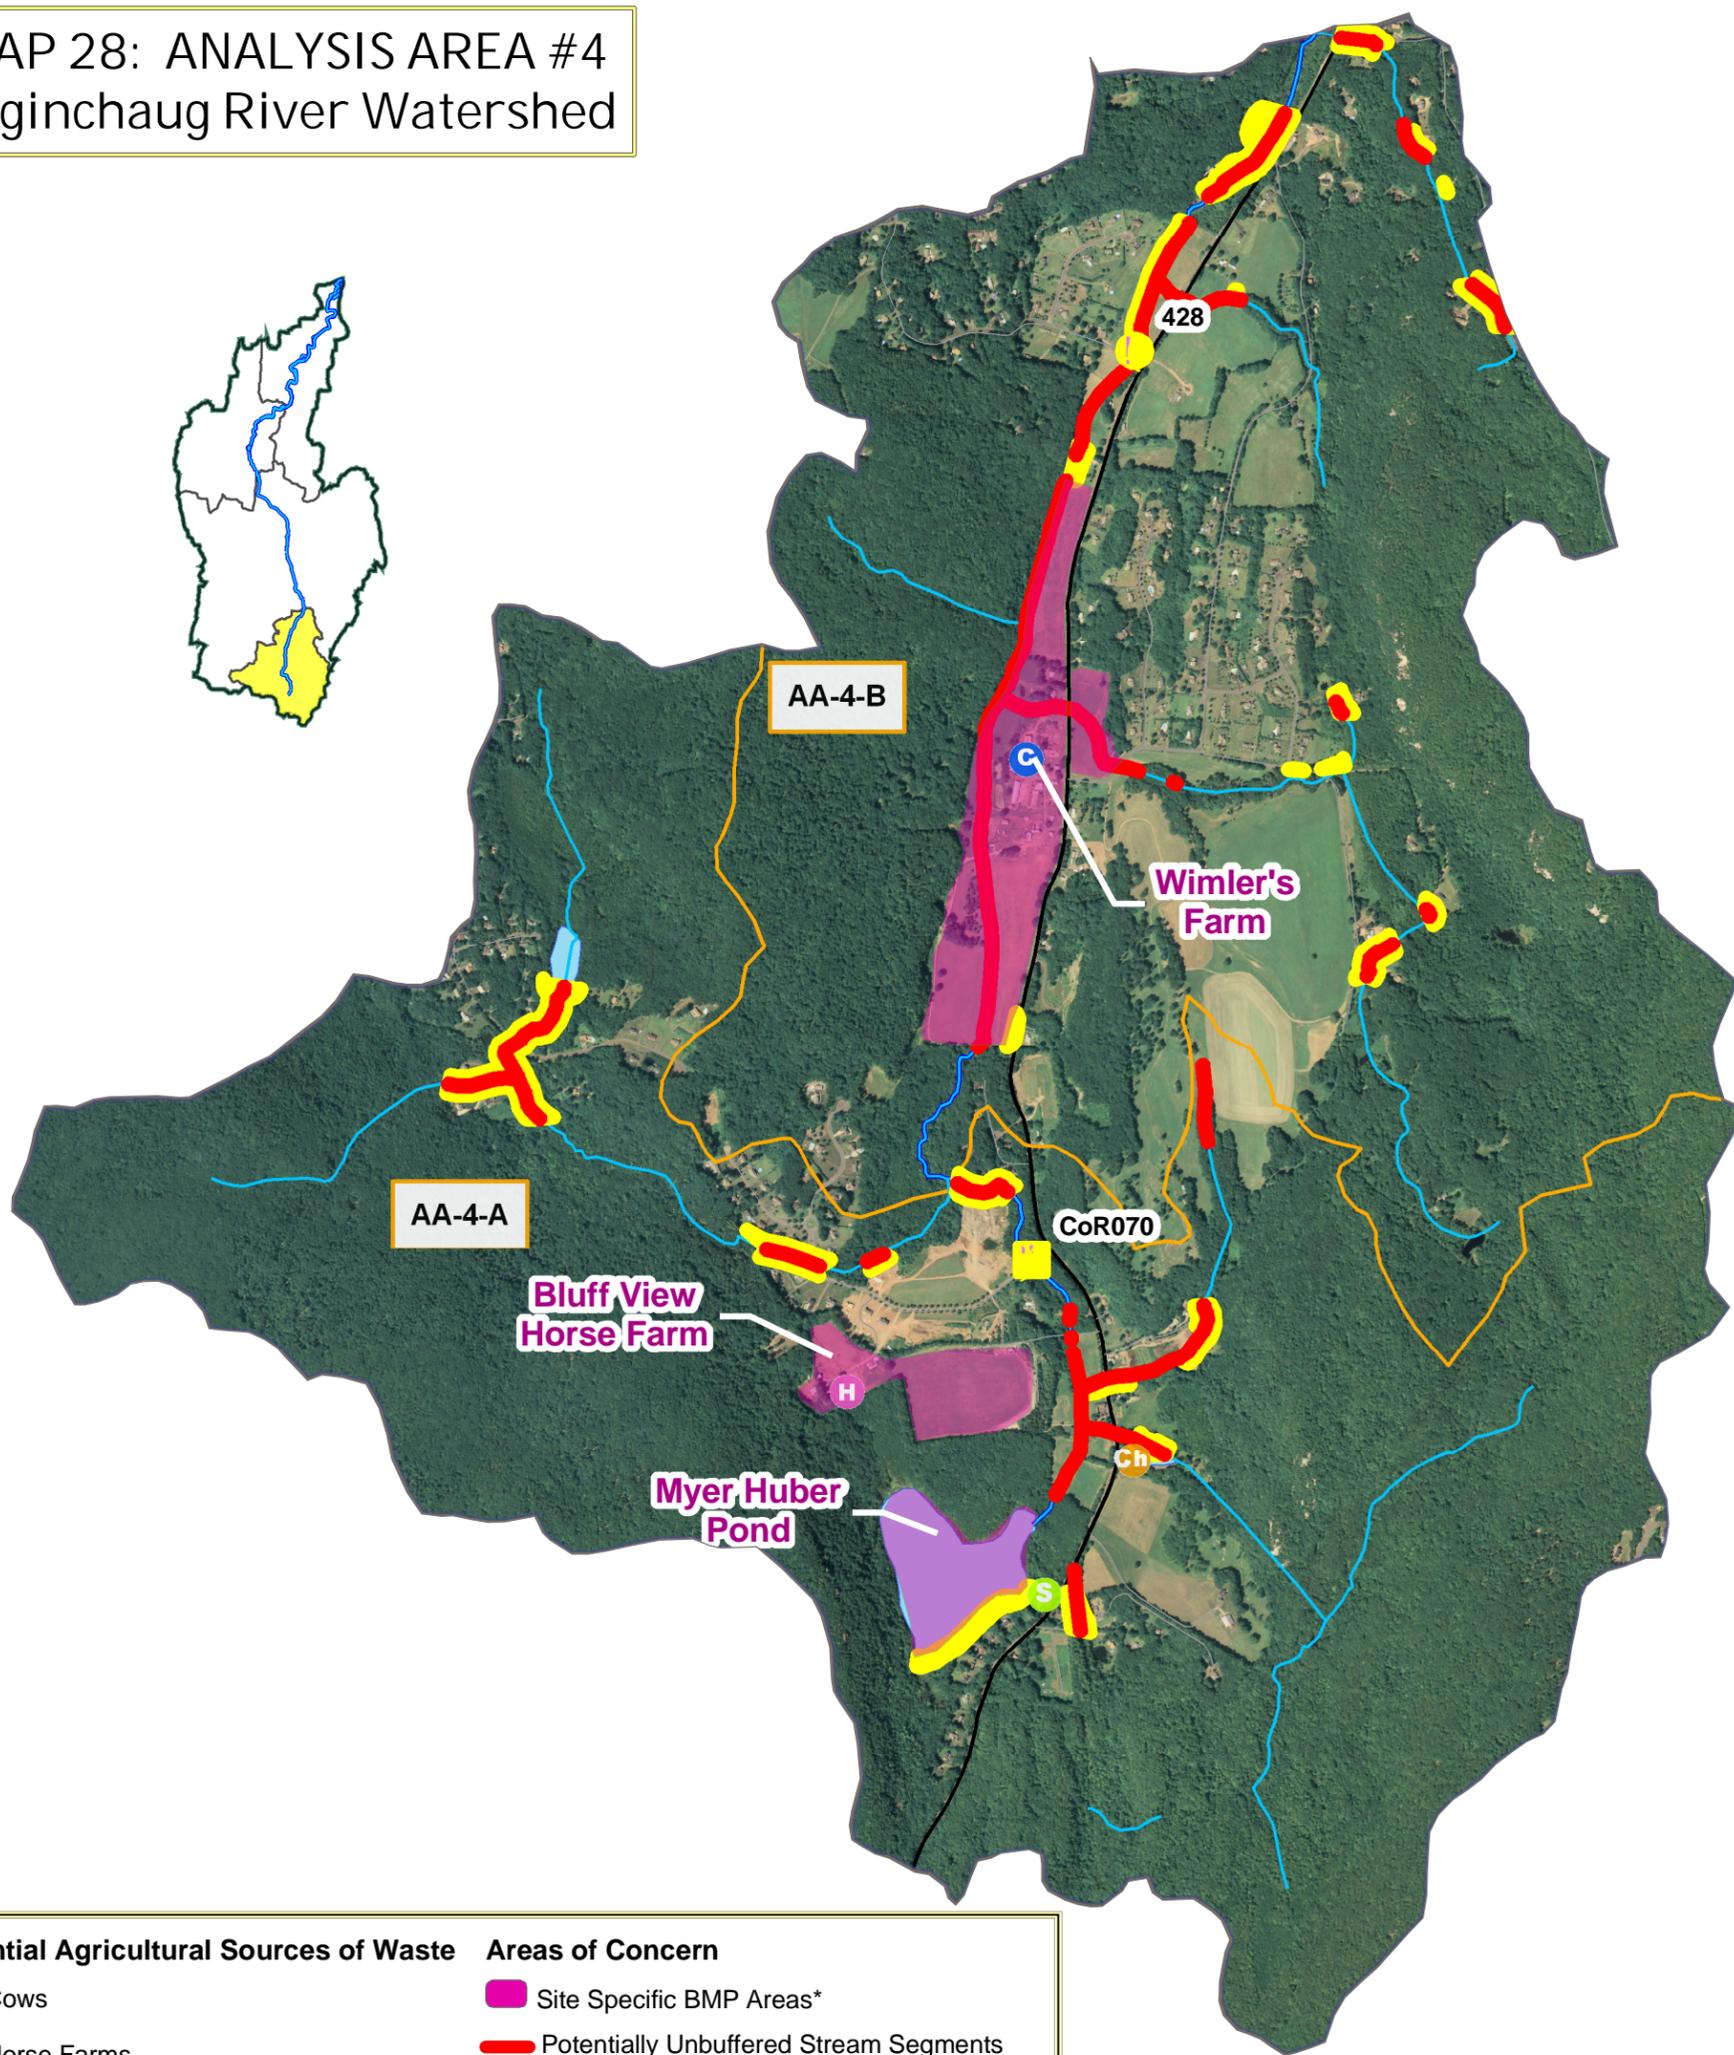

**MAP 28: ANALYSIS AREA #4  
Coginchaug River Watershed**

Potential Agricultural Sources of Waste	Other Potential Sources of Waste	Water Quality Monitoring Points	Areas of Concern	Perennial Water	Roads	Sub-Analysis Areas
Cows	geese	Monitoring Points used in TMDL	Site Specific BMP Areas*	Coginchaug River	Secondary Roads	Boundary
Horse Farms	dogs	Ancillary Monitoring Points	Potentially Unbuffered Stream Segments	Other Streams	State Roads	
Sheep	seagulls		Residential Areas of Potential Septic Failure	Waterbodies		
Chickens						

\* The locations of the "Site Specific BMP's" are approximate. Also, the polygons indicating unbuffered stream segments and areas of potential septic failure are not to scale - the exaggerated size was necessary to make the sites visible given the scale of the map.
