Next recommendation	<p>We continued to discuss the concept of Recovery Friendly Communities and reviewed the next draft of the “rubric”/guidelines that evolved from previous discussions, the Community Recovery Capital Assessment and the document that Jody created based on November’s discussion. Great discussion about how this document will be vetted and eventually distributed. Collecting data and offering a package of training and technical assistance as was done with the DMHAS “Trauma and Gender” initiative were also explored.</p> <p>Group members will be attending a Community Conversation being held in Wethersfield this evening that will explore the concept further and likely elicit additional valuable information to include in this sub-committee’s work.</p> <p>Lauren also reminded those in attendance to continue to try to recruit new committee members.</p>	Identify 1-2 communities to distribute a final draft of the guidelines for input/feedback/reality check. Under consideration are New London and 1 of the 4 communities in the Central CT Health District. (Wethersfield, Rocky Hill, Newington, Berlin)
Possible goal recommendation(s) to full Council	Develop and finalize set of guidelines and/or rubric to make available to towns that would provide guidance about becoming “recovery friendly”.
