  - Service Coordination and Network Building;
  - Information Sharing.

**Process and Outcome Evaluation**  
Yale University  
Program for Recovery and Community Health (PRCH)

**COD Steering Committee**, chaired by Commissioner Kirk, is the primary statewide governance structure to coordinate and oversee the planning, development, and implementation of all phases of CT's co-occurring activities and initiatives, including building upon and furthering the CT Co-Occurring State Incentive Grant (COSIG), the CT COD State Plan (National Policy Academy), and coherency with the policy strategies of the CT Alcohol and Drug Policy Council (ADPC) and the Mental Health Policy Council (MHPC). The COD Steering Committee, through monthly meetings and several workgroups, ensures consistency, accountability, and sustainability for CT's COD strategy.
