

## DMHAS State Operated Co-Occurring Practice Improvement Collaborative

All eight facilities/networks have designated a Co-Occurring Program Leader to:

- Participate in monthly workgroup meetings of these agencies, facilitated by the DMHAS Co-Occurring Project Manager and Dartmouth IDDT Consultant, Forrest Foster;
- Develop an integrated treatment implementation plan for their facility;
- Guide the implementation process at their site.

| Facility                                   | Co-Occurring Program Leader(s)   |
|--|--|
| Cedarcrest Hospital                        | Nannette Latremouille, Division Director<br>Gene Fergione, Division Director<br>Randy Kaplan, Director of Performance Improvement & Corporate Compliance |
| Connecticut Mental Health Center           | Avon Johnson, Associate Outpatient Director  |
| Connecticut Valley Hospital                | MaryKay O’Sullivan, Clinical Manager Addiction Services Division<br>Gloria Dzerovych, Project Manager General Psychiatric Division and Whiting           |
| Capitol Region Mental Health Center        | Michael Levinson, Director of Clinical Services  |
| River Valley Services                      | Margaret O’Hagan-Lynch, Clinical Director  |
| Southeast Mental Health Authority          | Mike Migaldi, Team Leader  |
| Southwest Connecticut Mental Health System | Kate Powell, IDDT Project Director   |
| Western Connecticut Mental Health Network  | Matthew Snow, Network Clinical Director  |

### Activities

#### Start-up

- Compile results of (or conduct) IDDT/DDCAT program assessments
  - Integrated Dual Disorders Treatment (IDDT) fidelity scales
  - Modified IDDT Fidelity Scale for Inpatient Settings
  - Dual Diagnosis Capability in Addiction Treatment (DDCAT) assessments
- Including a focus on people with COD in their quality assurance processes (i.e., identifying people with COD, their outcomes relative to people without COD)
- IDDT and DDCAT Toolkits distributed

#### Training, Consultation, Implementation Support

- Implementation Plans submitted
- Onsite meetings and trainings with program leaders/staff and consultants
- Monthly meetings of the Collaborative; cofacilitators: Julienne Giard, Rusty Foster; sharing of integrated treatment tools developed across the system.
- Annual DDCAT/IDDT assessments to measure progress
- Facilities are developing internal trainers (some co-trained with consultant)
- Evaluation of the Workgroup process by sites
