Minutes

FY14 ANNUAL QUALITY REPORT UPDATE

Mark outlined the expected Quality Report timelines; August 15 for the preliminary reports to be sent to all providers for review and comments, then September 15 for final and web posting of the annual reports.

MONTHLY DATA QUALITY MONITORING NEWSLETTER

(Start-up Data Quality Tele Conference Calls Again) Mark explained that the next bi-monthly data quality tele conf call (two calls) is scheduled for August 22nd, one call is at 9am and the next call is at 10am. Monthly Data Quality Newsletters will continue as in the past.

DSM 5 and ICD 10

Value Options has postponed the implementation of the DSM 5 for one year. DMHAS is beginning to discuss with some providers the testing of their DSM 5 files with a September dates for potential implementation. All providers considering DSM 5 implementation should contact Mark McAndrew.

CONSUMER SATISFACTION SURVEY UPDATE

Approximately 24K CSS have been collected. Any questions or concerns should be directed toward Karin Haberlin (860) 418- 6842. Analysis is underway.

CRITICAL INCIDENT DATA BASE IMPLEMENTATION

An August forum is plan for all providers to kick off the implementation of the newly developed critical incident and closure data base which is designed as another portal in the DDaP system. All providers will be expected to participate with state-operated LMHAs collecting and entering their affiliate C.I. into the database. Training dates, times and information will be forthcoming and is scheduled for September. Go-live for C.I. data entry activities for all providers is October 2014. Current processes stay the same until further notice and communication from Karin Haberlin, Project Manager (860) 418-6842.

WITs IMPLEMENTATION

This is the state-operated new EHR data system and the go-live date is August 4th. The Quality Reports due out in August 15th and for Sept. 15. Will encompass the Avatar data from the old state operated data system.
