Additional information about Connecticut tax credits is available in our online *Guide to Connecticut Business Tax Credits* available on the DRS website at portal.ct.gov/DRS.

Corporation Business Tax credits must be applied in a specific order, where a corporation is eligible to claim more than one tax credit. In no event, however, shall any tax credit be claimed more than once. The order is as follows:

1. Any tax credit that may be carried back to a preceding income year must be applied before any other tax credit. Any tax credit carryback that will expire first must be claimed before any tax credit carryback that will expire later. If the tax credit carrybacks will expire at the same time, tax credits must be taken in the order in which the corporation may receive the maximum benefit.
2. Any tax credit that may not be carried back to a preceding income year and that may not be carried forward to a succeeding income year must be claimed next, in the order in which the corporation may receive the maximum benefit.

3. Any tax credit that may be carried forward to a succeeding income year must be claimed next. Any tax credit carryforward that will expire first must be claimed before any tax credit carryforward that will expire later. If the tax credit carryforwards will expire at the same time, tax credits must be taken in the order in which the corporation may receive the maximum benefit.
4. The Electronic Data Processing Equipment Property tax credit must be applied last, after all other tax credits have been applied.

Limits on Credits: The amount of tax credits otherwise allowable against the Corporation Business Tax for any income year shall not exceed 50.01% of the amount of tax due prior to the application of the tax credit.

No tax credit can be applied against the minimum tax of \$250.

Form CT-1120K must be attached to the tax returns covered under the following Connecticut General Statutes chapters, when tax credits from the current income year are being claimed or when carryforward tax credit balances exist from the prior year:

- Corporation business tax under Chapter 208;
- Unrelated business income tax under Chapter 208a;
- Air carrier tax under Chapter 209;
- Railroad companies tax under Chapter 210;
- Community antenna television system companies tax under Chapter 211;
- Utility companies tax under Chapter 212;
- Public service companies tax under Chapter 212a; **and**
- Petroleum products gross earnings tax under Chapter 227.

If the taxpayer is claiming a tax credit against more than one tax type, a separate Form CT-1120K and applicable tax credit forms must be attached to each tax return for which a tax credit is being claimed.

Any tax credit balance that remains after applying the tax credits to the current year tax may be carried forward or carried back as provided in the Connecticut General Statutes, if the tax credit has not expired.

Combined Unitary Filers (Form CT-1120CU)

Each taxable member included in Form CT-1120CU is individually subject to tax credit usage limitations and the ordering rules explained previously. The separate member tax credits are then aggregated and applied against the combined group's tax liability. Credits may be deducted from

- Unused credits earned by a taxable member in a prior year in which the taxable member filed a separate Corporation Business Tax Return may be utilized only by the member that earned the credit.
- Unused credits earned by a combined group member in a year that it was included in a group that filed **Form CT-1120CR**, *Combined Corporation Business Tax Return*, or a **Form CT-1120U**, *Combined Unitary Corporation Business Tax Return*, may be used by the member that earned the credit or by any other combined group member that was included in the Form CT-1120CR or CT-1120U in the year the credit was earned.
