\* The Recommended Executive totals do not include amounts authorized for the UConn 2000 Infrastructure Improvement Program, authorizations for the Capital City Economic Development Authority, and for a grant to New London for economic development.

\*\* Does not include \$1 billion of Unemployment Compensation Bonds and certain other revenue bonds.

\*\*\* P.A. 98-179 specifically authorized certain tax incremental financing projects in Bridgeport and New Haven, subsequently repealed.

## FEDERAL TAX LAW

Federal tax law severely restricts the flexibility of the State in issuing tax-exempt bonds and establishes tests for the tax-exemption of interest on bonds issued by governmental units. Therefore, the recommended bond authorizations on the following pages may not all be issued as tax-exempt due to Federal tax law definitions of what constitutes governmental bonds.

## STATUTORY DEBT LIMIT

Section 3-21 of the General Statutes, as amended, provides that "No bonds, notes or other evidences of indebtedness for borrowed money payable from General Fund tax receipts of the State shall be authorized by the general assembly except such as shall not cause the aggregate amount of (1) the total amount of bonds, notes or other evidences of indebtedness payable from General Fund tax receipts authorized by the general assembly but which have not been issued and (2) the total amount of such indebtedness which has been issued and remains outstanding, to exceed one and six-tenths times the total general fund tax receipts of the State for the fiscal year in which any such authorization will become effective, as estimated for such fiscal year by the joint standing committee of the general assembly having cognizance of finance, revenue and bonding in accordance with section 2-35. In computing such aggregate amount of indebtedness at any time, there shall be excluded or deducted, as the case may be, (1) the principal amount of all such obligations as may be certified by the Treasurer (A) as issued in anticipation of revenues to be received by the State during the period of 12 calendar months next following their issuance and to be paid by application of such revenue or (B) as issued to refund or replace any such indebtedness then existing and outstanding in an amount not exceeding such existing indebtedness or (C) as issued and outstanding in anticipation of particular bonds then unissued but fully authorized to be issued in the manner provided by law for such authorization, provided, so long as any of said obligations are outstanding, the entire principal amount of such particular bonds thus authorized shall be deemed to be outstanding and be included in such aggregate amount of indebtedness or (D) as payable solely from revenues of particular public improvements, (2) the amount which may be certified by the Treasurer as the aggregate value of cash and securities in debt retirement funds of the State to be used to meet principal of outstanding obligations included in such aggregate amount of indebtedness, (3) every such amount as may be certified by the Secretary of the Office of Policy and Management as the estimated payments on account of the costs of any public work or improvement thereafter to be received by the State from the United States or agencies thereof and to be used, in conformity with applicable federal law, to meet principal of obligations included in such aggregate amount of indebtedness, (4) all authorized and issued indebtedness to fund any budget deficits of the State for any fiscal year ending on or before June 30, 1991, (5) all authorized indebtedness to fund the program created pursuant to section 32-285, (6) all authorized and issued indebtedness to fund any budget deficits of the State for any fiscal year ending on or before June 30, 2002, and (7) any indebtedness represented by any agreement entered into pursuant to subsection (b) or (c) of section 3-20a as certified by the Treasurer, provided the indebtedness in connection with which such agreements were entered into shall be included in such aggregate amount of indebtedness. In computing the amount of outstanding indebtedness, only the accreted value of any capital appreciation obligation or any zero coupon obligation which has accreted and been added to the stated initial value of such obligation as of the date of any computation shall be included."

The debt-incurring margins estimated as of July 1, 2007 and as of July 1, 2008 are calculated below.

	<u>FY 2008</u>	<u>FY 2009</u>
Revenues	\$12,634,300,000	\$13,231,200,000
Multiplier	1.6	1.6
Limit	\$20,214,880,000	\$ 21,169,920,000
Bonds Subject to Limit*	\$14,720,944,833	\$ 15,675,266,081
Debt Incurring Margin	\$ 5,493,935,167	\$ 5,494,653,919

In accordance with the General Statutes, the Treasurer shall compute the aggregate amount of indebtedness as of January 1, and July 1 each year and shall certify the results of such computation to the Governor and the General Assembly. If the aggregate amount of indebtedness reaches 90% of the statutory debt limit, the Governor shall review each bond act for which no bonds, notes or other evidences of indebtedness have been issued, and recommend to the General Assembly priorities for repealing authorizations for remaining projects.

\*Does not include Tax Incremental Financings, Special Transportation, Bradley Airport, Clean Water Fund Revenue, Connecticut Unemployment Revenue Bonds, and economic recovery notes.
