Holcomb Farm Parking Lot Construction & Building Renovations

"The Holcomb Farm is truly a special place in Granby. It reflects our heritage and provides residents and the region with new opportunities – both inside and out. The STEAP grant from the State of Connecticut made this possible."

- William F. Smith, Jr., Town Manager

Award Date: July, 2013

Date Completed: September, 2015

Administering Agency: Office of Policy & Management

Together with private contributions, the \$500,000 STEAP grant to the Town of Granby provided funding to complete the construction of a parking lot and the rehabilitation of buildings at the Town's innovative and creative Holcomb Farm property.

These improvements allow the town the move forward with its goals of unique shared settings for both private and public events. In the past, the property has been used for various social gatherings and community celebrations. Now, the space will have an even larger, more positive economic and social impact within the community and region.
