November 1, 2019

To the Leaders of the Connecticut General Assembly:

In accordance with Connecticut General Statutes (CGS) Sec. [2-32c](#), as amended by Sec. 107 of [PA 17-2 of the June Special Session](#) and Sec. 3 of [PA 19-193](#), attached is a list of new or expanded state mandates and mandate reductions arising from the 2018 legislative session.

As discussed in the report covering the 2017 sessions, the ACIR had delayed that year's reporting so a single document could encompass all mandates and mandate reductions of 2017's prolonged special sessions. Sec. 107 of PA 17-2 of the June Special Session subsequently eliminated ACIR mandate reporting until 2019 and the ACIR submitted the 2017 report in early 2019.

The ACIR had considered combining the 2018 and 2019 legislative session reports, but instead will keep them separated. The 2019 report will be submitted by November 15, consistent with the current requirements of CGS 2-32c.

The statutory definition of mandate utilized in this listing includes actions that require a local government to create, expand or modify its activities in such a way as to necessitate additional expenditures from local revenues. Specifically excluded are legislation that do the same but are enacted to comply with federal mandates, as well as legislation required by court order.

The 2018 regular and special sessions resulted in fourteen public acts that were determined to include new or expanded mandates. That is three fewer than in 2017 and five fewer than in 2016, the previous even-year short legislative session. While the ACIR does compare the number of new or expanded mandates with numbers from previous years, the ACIR points out that the adoption of fewer this year should not be considered an achievement. The ACIR believes the focus should be on the fact that mandates were created or expanded in fourteen public acts.

This report identifies an additional three public acts that will have the impact of a mandate, but are not specifically directed at municipalities. That is the same as in 2017 and two fewer than were reported in 2016. These are identified as "Section C" mandates in the ACIR's separate mandates compendiums.

A long-standing objective of the ACIR has been to encourage mandate reductions that can lead to administrative and/or fiscal relief for municipalities. This report identifies four public acts that reduced mandates, which is seven fewer than in 2017 and four fewer than in 2016, the previous even-year short session.

The list of bills was developed by ACIR staff and, while the ACIR believes all relevant legislation has been identified, the ACIR welcomes input from others regarding any legislation that should

be included or excluded. In addition to the listing of the bills as required in the statute, this report provides several additional pieces of information to assist the General Assembly.

Mandate Description - A short explanation of those portions of the bill which meet the mandate definition.

Committee(s) Reviewing Bill - A listing, beginning with the Committee of Cognizance, of all committees which considered the bill.

Office of Fiscal Analysis (OFA) Fiscal Impact Statement - The statements, if any, used by OFA to characterize the municipal fiscal impact of the mandate.

No matter how worthwhile, each mandate imposes a burden on municipalities. The burden of a specific mandate might be large, in and of itself, and the legislature's Office of Fiscal Analysis, as well as municipalities, school districts and organizations representing them call attention to such mandates during the legislative session. Many mandates, on the other hand, impose only a small burden individually and, therefore, attract little attention as focus is drawn to larger concerns. Multiple small mandates, however, can have a substantial cumulative impact, creating a hidden burden on municipalities and municipal officials.

The ACIR urges the General Assembly to consider the impact of state mandates on local governments. This is directly connected to the positive working relationship between the State and its cities and towns: state mandates represent the establishment of priorities and constraints for an individual city or town by officials representing other cities and towns. To the extent these mandates are unfunded or underfunded, such decisions can create an obligation for municipalities to raise additional funds or to change spending priorities from those that would reflect the will of the local community. Similar consideration should be also be given when enacting mandates that are funded at the onset, but whose funding might be reduced or discontinued in future years.

This list of mandates should not be considered to be a list of bad statutes. State and local officials concur that some state guidelines and requirements are appropriate under our system of government from both legal and practical standpoints. There are many governmental issues that are best administered by local governments, but in a manner that promotes statewide uniformity. These issues can range from elections to property assessment standards to police training to aspects of education administration and beyond. The details of such requirements and responsibility for the resulting costs have been, are now, and will continue to be the subjects of much debate.

Sincerely yours,

Neil O'Leary

State Mandate Definition

[Connecticut General Statutes Sec. 2-32b](#). *State mandates to local governments. Definitions. Cost estimate required. Procedures re bills creating or enlarging mandates.*

(a) As used in this section:

(1) "Local government" means any political subdivision of the state having power to make appropriations or to levy taxes, including any town, city or borough, consolidated town and city or consolidated town and borough, any village, any school, sewer, fire, water or lighting district, metropolitan district, any municipal district, any beach or improvement association, and any other district or association created by any special act or pursuant to chapter 105, or any other municipal corporation having the power to issue bonds;

(2) "State mandate" means any constitutional, statutory or executive action that requires a local government to establish, expand or modify its activities in such a way as to necessitate additional expenditures from local revenues, excluding any order issued by a state court and any legislation necessary to comply with a federal mandate;

(3) "Local government organization and structure mandate" means a state mandate concerning such matters as: (A) The form of local government and the adoption and revision of statutes on the organization of local government; (B) the establishment of districts, councils of governments, or other forms and structures for interlocal cooperation and coordination; (C) the holding of local elections; (D) the designation of public officers, and their duties, powers and responsibilities and (E) the prescription of administrative practices and procedures for local governing bodies;

(4) "Due process mandate" means a state mandate concerning such matters as: (A) The administration of justice; (B) notification and conduct of public hearings; (C) procedures for administrative and judicial review of actions taken by local governing bodies and (D) protection of the public from malfeasance, misfeasance, or nonfeasance by local government officials;

(5) "Benefit spillover" means the process of accrual of social or other benefits from a governmental service to jurisdictions adjacent to or beyond the jurisdiction providing the service;

(6) "Service mandate" means a state mandate as to creation or expansion of governmental services or delivery standards therefor and those applicable to services having substantial benefit spillover and consequently being wider than local concern. For purposes of this section, applicable services include but are not limited to elementary and secondary education, community colleges, public health, hospitals, public assistance, air pollution control, water pollution control and solid

waste treatment and disposal. A state mandate that expands the duties of a public official by requiring the provision of additional services is a "service mandate" rather than a "local government organization and structure mandate";

(7) "Interlocal equity mandate" means a state mandate requiring local governments to act so as to benefit other local governments or to refrain from acting to avoid injury to, or conflict with neighboring jurisdictions, including such matters as land use regulations, tax assessment procedures for equalization purposes and environmental standards;

(8) "Tax exemption mandate" means a state mandate that exempts privately owned property or other specified items from the local tax base;

(9) "Personnel mandate" means a state mandate concerning or affecting local government: (A) Salaries and wages; (B) employee qualifications and training except when any civil service commission, professional licensing board, or personnel board or agency established by state law sets and administers standards relative to merit-based recruitment or candidates for employment or conducts and grades examinations and rates candidates in order of their relative excellence for purposes of making appointments or promotions to positions in the competitive division of the classified service of the public employer served by such commission, board or agency; (C) hours, location of employment, and other working conditions and (D) fringe benefits including insurance, health, medical care, retirement and other benefits.
