

MidState Arc is a nonprofit dedicated to enabling people with intellectual and developmental disabilities to lead more independent and fulfilling lives.

Founded by families in 1952 and still operated with a great deal of input from families today, our agency supports hundreds of individuals in 26 Connecticut towns surrounding our headquarters in Meriden. Through residential services, employment and volunteer programs, children's programs and more, we empower people with disabilities to develop skills, form meaningful social relationships, contribute to their community and meet the challenges of daily life.

Located in Meriden, MidState Arc's administrative building also houses four programs which provides services to over 70 individuals. Funding received through Round 1 of the Nonprofit Grant Program allowed us to purchase and install a generator at our main site along with generators at five of our group homes. During inclement weather, our people were able to remain in the comfort of their own homes and our main site provided respite to those less fortunate.
