

Instructions - Supplier Price Filing Form

- Identify each offer by EDC and customer class (e.g., CL&P residential, UI business.)
- Provide consecutive numbers for each offer, beginning at #1.
- Provide separate numbers for each offer.
- Place the offer number in the cell as shown in the sample price form.
- For subsequent filings, continue with consecutive numbers, deleting offers that you no longer want to appear on the Rate Board and adding new offers with new offer numbers that you want added at the end of the Price Filing form.
- Note that if you want to change a price (e.g., from a previous offer) you must delete the offer and submit a new offer with a new price and new offer number.
- While it seems simple to just change the price on an existing offer PURA has found this difficult to manage among the multiple suppliers who post to the Rate Board.
- Price Filings submitted on Friday afternoon may not be processed until the following Monday.
- Contact Chuck Winchell at 860-827-2636 or charles.winchell@ct.gov for information about submitting Price Filings to PURA.
