

Vegetable Subgroups in the National School Lunch Program

The U.S. Department of Agriculture’s (USDA) meal patterns for grades K-12 in the National School Lunch Program (NSLP) require weekly servings of five vegetable subgroups. These subgroups are based on the recommendations of the *Dietary Guidelines for Americans* and the [vegetables group](#) in Choose MyPlate. The chart below identifies commonly eaten vegetables in each subgroup.

All vegetables credit based on volume, except raw leafy greens such as spinach and lettuce credit as half the volume served, and tomato paste and puree credit based on the volume as if reconstituted. For more information, see the USDA’s *Food Buying Guide for Child Nutrition Programs*. Vegetable juice must be pasteurized 100 percent full-strength juice and cannot exceed than half of the weekly vegetables served.
