How to Add a Services Plan Student to SEDAC

Use this procedure to enter your Services Plan student data using online or hand entry to the SEDAC collection. Prior to entry to SEDAC the district where the private school is located must also register and unregister the student in PSIS REGISTRATION so that their town is listed as Nexus District.

Because Services Plan Students are not included in PSIS collections, but are required to be reported in Federal IDEA reports, some PSIS information must be reported in addition to the required fields for all other IEP students.

Prerequisites

- Authorization for the PSIS REGISTRATION system (PSIS Data Manager) or obtain a SASID from your PSIS Data Manager.
- Authorization for the SEDAC: Special Education Data Application and Collection system
- SEDAC open
- The collected data for entry into the system
- Student cannot have an active Services Plan or IEP SEDAC record in any district.

PSIS Registration for Services Plan Students

- Services Plan students need a SASID created in PSIS REGISTRATION where NEXUS DISTRICT in the most recent PSIS REGISTRATION record matches the logged on District prior to reporting in SEDAC.
- Student cannot have an active PSIS REGISTRATION record in any district (must have an EXIT DATE and EXIT TYPE).
- Cannot be reported in any district PSIS OCTOBER COLLECTION.
- The district providing the services plan is the REPORTING DISTRICT and NEXUS DISTRICT.
- The HOME FACILITY CODE must match the FACILITY CODE 1.

IMPORTANT: One major hold-up to reporting Services Plan students has been the inability to obtain a SASID without the parents of the student visiting the Public School and filling out a Registration Form.

Please know that federal and state regulations have no requirement for the student to be registered in the district in order to receive a Services Plan.

Districts may have a policy requiring parents to fill out the registration, but this policy cannot interfere with the mandatory delivery of special education services or with the federal reporting requirements.

Services Plan Rules

For-profit private schools do not qualify as either an elementary or secondary school under IDEA (Sections 300.13 and 300.36 of IDEA respectively) and thus, you have no responsibility under state or federal law to provide Child Find activities or services to any of these students **who are not residents of your district's geographical boundaries.**

Districts are required to report students with disabilities that have been Parentally Placed in Private Schools. These are students who have been enrolled by their parents or guardians in parochial or other private schools and whose basic education is paid through private resources and who receive special education and related services at public expense from a local educational agency or intermediate educational unit under a Services Plan. Sections 300.130-300.139 of IDEA

13 Filter the Error Messages Report for Status=**Record did not upload**

Identifying SASID #s that do not exist under View IEP/Services Plan students

- For IEP students, Error=**The SASID could not be found** means the SASID# is not listed in SEDAC under View IEP students because in the PSIS October Collection
 - the SASID# is not reported, or
 - NEXUS indicator does not reflect your district, or
 - the SPECIAL EDUCATION indicator does not = YES
- For Services Plan students, Error=**The SASID could not be found** means the SASID# is not listed in SEDAC under View Services Plan students because in the PSIS Registration
 - the SASID# does not exist or
 - the SASID# has not been registered/unregistered with your town listed as NEXUS district

Contact the appropriate PSIS data manager to resolve immediately.

Identifying SASID #s that exist under View IEP/Services Plan students, that did not upload

- If a student's SASID is found, but the student's DOB or FACILITY CODE 1 cannot be matched the **Record did not upload!**
 - The SASID# is listed under IEP (Service Plan) Students, but NO data was uploaded.

IMPORTANT: If completing via hand entry do not simply resolve red errors only, VERIFY every data field!

14 Once you have resolved each of the errors in your data file - Go to Step 1.

15 Select **View IEP [or Services Plan] Students** to review your student data.

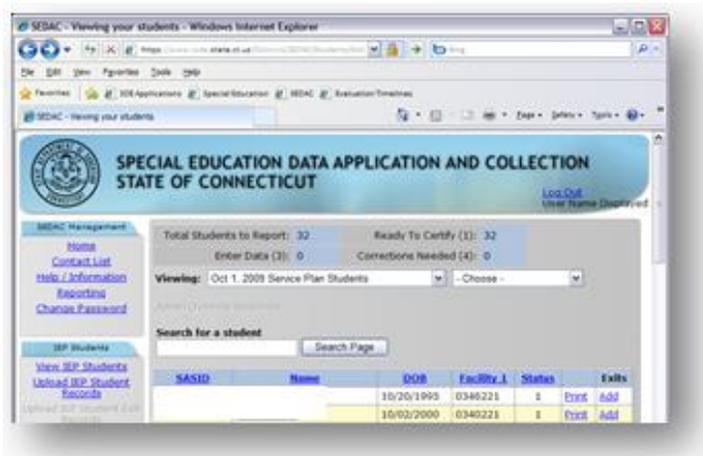

16 This procedure is complete.
